Thanks and hopefully this is almost the last word on the subject. That said, I also ask that Nyssa send the historic distribution shapefile as well, if that was not included in the package of shapefiles. That line was also modified in the process.

Sounds good. Tom if there are any issues please give me a ring as well. I have had my head down on the modeling so I am out of the loop.

Nyssa, please hold off on this until we visit later this morning. I'll call during the morning break about 10.

Tom and Nyssa,

Thank you for the quick review. As you suggested we only added back in the areas that were within the boundaries of your updated distribution map.

We are getting closer to being able to run our oil and gas scenarios. I wanted to make sure we had the latest version. Could you please send.

Cheers
Kevin
