Subject:	Re: GRSG: Assignment - analysis and write up of WY Core area strategy
Date:	Wednesday, March 25, 2015 9:49:12 AM

What is the status of this assignment? The species leads will need the analysis of the effectiveness of the core area strategy in the next week or two for incorporation into the modeling and species report.

> If you have not already begun, you will need to produce an analysis of the Wyoming Core Area strategy for the status review and to show this analysis in the record. At this point, draft it as a memo to the file and ensure that it is comprehensive and details how it works and how it benefits the species now and into the future. The actions uploaded in the CED along with other documentation from the state should be useful in this analysis. If we completed this previously in the 2010 finding, you'll need to find it, make sure it is in the record for this status review and produce an update with any new information. If we need to have a conversation about this, please let me know. Thanks.
