To: Alt, Nicole
Subject: Re: scheduling next GSG conservation efforts working group call
Date: Tuesday, September 17, 2013 12:24:11 PM

I'll give it a look -- but I see you made the edits. Do we want to add in some of the smaller metrics that I removed yesterday or move forward with this list? I'll send it out to the internal FWS group when I'm done.

On the the call today, we'd like to walk through the threats identified in the COT report and review the list of actions or measures that we brainstormed to add any additional measures or actions that will have a population or PAC level benefit or impact. For the State and Federal agencies, please think about the actions you are implementing or recommending being implemented to address the threats so we can capture those within the measures.

> Just a reminder that we're having a metrics team call tomorrow morning to continue the discussion regarding the efforts to be reported. We're still working the document to help frame the discussion and seek your feedback and input on the call tomorrow. I'll send that out first thing tomorrow morning.

The FWS is working on a draft document to share with you before the call and to use as a basis for this continued discussion. We'll send details as we get closer to the call.
