You bet. We provided the link to all FWS folks working on sage-grouse and asked them to circle back with partners – including states and some federal contacts- and any other interested parties who earlier inquired about the memo and the shape files so those loops should be closed soon if not already. I don't think we need to distro it to the larger SGTF, since those TF members who did ask about it earlier will get it through the above channels. Thanks.

Matt,

Thanks for forwarding this link. Did you want me to send it to the SGTF?

Regards,
Katie

Katie,

Per our earlier conversation re: the subject item, we've posted both the Director's memo to BLM and USFS and the related spatial data on USGS' ScienceBase site, where any interested party can access and download this information. Please let me know if you have further questions about this item. Regards,

Matt
