Hi Drue, Lara, Todd;
I'm already on a call this morning...but 11-12MT on 11/26 will fit in nicely.
One question; I have a call tomorrow with Carlee of WGA... do you share information, spatial data with the WGA CHAT folks? We are looking into it, still learning about what they are doing.

Brian

Would you be available between 8 and 10 am MT (I seem to recall you are PT so that might be early...) or between 11 and noon MT on 11/26?

>> It's been awhile since I visited your office...and I still have those ideas about the overlaps between landscape assessments for golden eagles and sage grouse. I'm hoping you'll have a little time to discuss these ideas during the next couple of weeks. In particular, I'm interested in any west-wide spatial data pertaining to sage-steppe habitat conditions (or even just a good vegetation layer that reliably shows sage v. grassland v modified habitat).
