Kevin-

Sounds good. I've copied Steve Abele, Ron Baxter, and Lee Corum of my staff here. Please work with Steve and others to coordinate a visit. I'm happy to help arrange meetings and make sure you meet all the right people.

Ken Mayer is excited to have you attend. And if you can get here sooner, all the better!

Ted

Ted,
I will likely want to attend and come a bit early and stay a day late. If I can coordinate it I would like to use the time to meet some of the folks that I do not know. I very well may make the trip earlier if the habitat modeling gets going soon.

Cheers
Kevin

Howdy-

FYI – the next two meeting dates for the WAFWA Fire & Invasive Species working group with Ken Mayer – July 1 and August 5 in Reno and NDOW Headquarters office.

Let's discuss who should attend. They like it when we come, and we should be careful to not overwhelm.

Thanks,

Ted

Thanks everyone for filling out the Doodle Poll. It looks like 90% of our group will be able to make a meeting for July 1, 2014 and August 5, 2015. Please mark your calendars for those 2 dates. We will plan to meet at the Reno NDOW office on Valley Road like last time. I will send another Doodle Poll for September.

Between now and then our subcommittees will be working on their projects. As an FYI--Todd Hopkins of the Great Basin LCC has graciously funded the Bozeman Invasive Species Center to pull together the Chapter information on invasive species management in the west as it pertains to sage-grouse. Michael, Todd and I will keep you posted on the developments. For those of you on the Invasive Species Subcommittee expect an email in the next couple of weeks to set-up a conference call to talk about the contract work and other report issues. Again, thanks for everyone's help!
