Noreen - attached are the maps for the BLM alternatives.

Alternative B - NTT Alternative - includes Anthro and West Tavaputs
Alternative C - NTT + conservation groups recommendations Alternative - includes Anthro and West Tavaputs
Alternative D - Subregional Alternative (this is the Alternative that BLM/FS has been working closely with us on) = includes Anthro and West Tavaputs
Alternative E - State Plan Alternative - does not include Anthro and West Tavaputs

To get your bearing - I also attached a map titled Anthro_West Tavaputs on which I circled the areas of Anthro and West Tavaputs. You can then look at Alternatives B-E to see the distribution of priority vs. general habitat area. On Alternative E, most of the Carbon Management Area is considered priority (some of the areas along the edge would be opportunity areas) - doesn't show on this particular map.

Note - the area to the east of this SGMA is largely Ute Tribe land, and was thus not considered priority in any of the alternatives - the Ute Tribe was asked, but did not want to participate in this planning effort.

Let me know if you have any specific questions.

Laura.

Laura,

Do we have a map we can send or at least scan a pdf to Noreen and Nicole?

Thanks Larry, I want to see where BLM is on their alternatives and what kind of discussions they may have had recently about the future of W. Tavaputs and Anthro in their planning process. Ideal is for FWS and BLM to be on the same page of music when your comment letter goes. Is there a map you

can share with me that shows where these 2 pops are in the state, maybe even relative to the PAC boundaries?

Also, I will forward to you and Nicole some comments on your draft letter. Gary Frazer and I looked at it this weekend and have a few thoughts, not on substance – just on emphasis. Thanks so much for your efforts!

Noreen, I will be available at 2:30 Mtn (4:30 eastern) tomorrow. Do you all have a conference call number?

Jessica,
Could you do 5 pm eastern time on Tuesday? Or Wednesday morning 8 or 9 am eastern? Let me know what looks best. I am copying Larry Crist and Juan Palma.

Hi Noreen -

Ed is on A/L and driving today so I'm not sure he'll see this to reply to you. A Utah plan FWS/BLM coordination call sounds like a good idea. We're at the North American most of next week but could take a break for a call. The Sage-Grouse EOC is Monday from 8-12 ET. We also have some priority BLM meetings Tuesday 1-4, and Wednesday and Thursday from 1-5 ET- if we can avoid those times it would be appreciated. If you all want to meet sometime today Dwight and I can make that work too.

Best,
Jessica

I had a thorough briefing with Utah fws staff yesterday on the UT plan. Seems like it would be helpful for me, you, and all involved to have a call. I think it will be best if fws and blm have a consistent msg if possible. Do you and jessica want to be involved or how would you like to proceed? We can have a call set up with us, Larry and Juan if you are willing.
Noreen
