March 20 Webinar

Understanding Greater Sage-grouse Response to Wind Energy Development at a Landscape Scale

Wednesday, March 20, 2013, 12:00–1:30 pm Mountain Time

Registration: https://www3.gotomeeting.com/register/735498878

Hosted By: GNLCC and NWCC Sage-Grouse Research Collaborative

Summary: The webinar will feature two presentations from the two active research projects being overseen by the National Wind Coordinating Collaborative Sage-Grouse Research Collaborative.

Presentation 1: "Short-Term Impacts to Greater Sage-Grouse from Wind Energy Development"

Presenters: Chad W. LeBeau (Department of Ecosystem Science and Management, University of Wyoming & WEST, Inc.); Jeffrey L. Beck (Department of Ecosystem Science and Management, University of Wyoming); Gregory D. Johnson (WEST, Inc.); Matt J. Holloran (Wyoming Wildlife Consultants, LLC).

Presentation 2: "Ecology of Male Greater Sage-Grouse Before Wind Energy Development in South-Central Wyoming"

Presenters: Joshua J. Millspaugh (Department of Fisheries and Wildlife Sciences, University of Missouri); Mark A. Rumble (U.S. Forest Service, Rocky Mountain Research Station, Forest and Grassland Research Laboratory); Aleshia Fremgen, Christopher Hansen (Department of Fisheries and Wildlife Sciences, University of Missouri); R. Scott Gamo (Wyoming Game and Fish Department); Jon Kehmeier, Nate Wojcik (SWCA Environmental Consultants)

The Sage-Grouse Research Collaborative (SGC) was formed in 2010 to coordinate studies examining the potential impacts of wind energy development on sage-grouse across their range with the goal of informing wind development and sage-grouse management strategies.
