This map was produced by the U.S. Fish and Wildlife Service from a map dated May 21, 2024, that was made effective on November 25, 2024, via Public Law 118-117. The boundaries of the John H. Chafee Coastal Barrier Resources System (CBRS) on this map are identical to the boundaries on the map adopted by Public Law 118-117. This map supersedes all prior maps depicting the CBRS boundaries in this location.

The seaward side of the CBRS unit contains the entire sand-sharing system, including the beach and nearshore area. The sand-sharing system of coastal barriers is normally defined by the 30-ft bathymetric contour. In large coastal embayments and the Great Lakes, the sand-sharing system is defined by the 20-ft bathymetric contour or a line approximately one mile seaward of the shoreline, whichever is nearer the coastal barrier.

For additional information about CBRA or the CBRS, please visit www.fws.gov/program/coastal-barrier-resources-act.

JOHN H. CHAFEE COASTAL BARRIER RESOURCES SYSTEM

Elizabeth Islands Unit C31 (2 of 2)
Penikese Island Unit MA-25P
