Noreen,

As mentioned, please see attached a supplemental document containing background/status on the CED. Lief did a really nice job on this and is also touching base with his state counterparts in advance of the meeting to gather any informal feedback. Lief and I think this latter step is important given he may not attend the TF meeting if there is no time to present the live demo of the CED. Please let me know if you have immediate questions on this item, and I'll add this to the hard copy SGTF briefing package Debbie is maintaining. Thanks.

Matt

Hi. All of the attached are in the hard copy folder Debbie created for this meeting, but here are the e-versions in case the RO, or I, am abducted by aliens between now and tomorrow when you come to the office. I am waiting on a short summary of CED from Lief in the event he can't demo it live to the TF due to a compressed agenda. I'll get that to you as soon as I receive it.

As discussed, we may need to revisit these materials (or create new ones) in light of the potential changes to the meeting agenda.

Please let me know if you have any immediate questions or feedback, including edits on the materials we will use regardless of the final agenda, e.g., your/Dan's TPs, etc. Thanks. MK
