---

Hello All –

This will be an ID Team Meeting to discuss the assumptions for disturbance calculations.

The types of disturbances we'll need to discussed are found on the document attached below:

We really need for the Core ID Team members, the Wildlife Biologists and the GIS folks to participate in this meeting so that we can get their input and expertise as we discuss our assumptions for the disturbance calculations.

**Please note that to change things up a bit, we'll be meeting at the CRVFO for this meeting.

Let me know if you have any questions at all.

Thanks so much!

Erin
