The NW CO review was deferred until next Friday. Reasons given were apparently due to internal BLM communication concerns. As you know we had some concerns with the plan as well, as did our state and FS partners. Resolution of those concerns is taking the format of a table that is being used in the ND and Lewistown plans. This is not a re-iteration of existing tables in the current RMP or EIS, but a new table that was developed to address the concerns raised in ND. It has been so well received that the BLM has decided to incorporate it into the NW CO plan.

Would both of you please let me know if you do not hear anything about this team by the end of the day so I can circle back to Johanna. Also, please advise if you need any assistance from me on this new adventure.
