Not sure what you mean exactly. My notes from our 10/13 conversation say "Mike will review the draft comments from pat and get back to me." I don't know if this is a big hairy deal or not. We want them to do off site mitigation where appropriate and I recall there was an issue of making sure they did sufficient monitoring to know success. Otherwise I hope we are in support.

I am on a NPT call tomorrow and this is likely to come up so I just need to know enough to defend. I am talking to Pat in the morning at 9 so I can ask her for the high points.

I may have gotten it I just don't recall. I did discuss some of Pat's concerns.

Pat, Mike was in the loop on this one and was planning to review what you put together. I haven't heard about it lately so I am copying him here.

Noreen -

BLM is requesting our comments on this policy. I sent you my concerns about a week ago and would like to give you the opportunity to review before I send it on to BLM.
