Hi all - we've been working on the other MT RMPs and haven't really been tracking this one closely since Jason is on the case (thanks Jason!). We don't have any outstanding concerns to bring forward at this time. If we become aware of concerns in the next day or so we'll let you know. Thanks for checking and talk to you soon,

Jeff

I know that ID has the lead for this one, but wanted to check in with you to make sure you are o.k. with this one moving forward. If you have outstanding concerns, primarily relative to the range of alternatives, please let me (and the rest of the folks copied her) know!
