FYI - HiLine has lined up the priority areas to match the FWP core area map throughout the planning area. Priority oil and gas stip moving forward for all plans now lining up as NSO in priority with 0.6 mile from lek edge NSO and 2.0 mile from lek edge CSU in general habitat. Wind in all priority moving to exclude, but still some questions on how to be consistent in general habitat (avoid or open). See you tomorrow. J

working lunch so Matt and Geoff can be on the road to Winnett by 3:00. Otherwise next Wednesday is the next best for the two of us. Thoughts? Thanks, Adam

I saw that also and had the same concerns (+ am home sick today...). I'd be up for rescheduling for Thursday of this week or Tuesday or Wednesday of next week?? Thoughts?

Hey All,
Looks like roads/weather might be iffy tomorrow - mostly for Jeff coming from Helena. Any thoughts to contingency plans?

So either the 11th or 12th still look good on this end - I'd suggest around 10 in Lewistown. Thoughts?

Hey Adam - on my way back to MT (I hope). I'll have to look at things when I get in Monday and get back with you. In talking with John, it would be much better for him to meet in Lewistown, which is fine. I'll catch up with you then,

Jeff

Jeff, in talking with Matt, we would propose meeting either march 11th or 12th so let us know what works best for you. As before, a meeting in Great Falls would work the best for us. We can also coordinate with Catherine. Thanks, Adam
