Dear Director Ashe,

I have taken on a new position with WildEarth Guardians, as their Sagebrush Sea Campaign Director. I will be working heavily on greater sage grouse (and also on lesser prairie chicken, Gunnison's sage grouse, and Columbian sharp-tailed grouse), in addition to covering oil and gas issues and lands conservation to some extent.

I will look forward to meeting with you in the not-to-distant future to discuss sage grouse conservation and ways that the Interior Department can achieve balance between conservation and competing land uses across the West. In the meantime, pleasde let me know if I can be of assistance to you in any way.

Best wishes,

--
