Subject:	Re: Name for our SG Listing Decision LC MAP data community
Date:	Thursday, May 01, 2014 12:12:33 PM

Not trying to be difficult, but GSG can mean a lot of things. Plus, I thought comparable names were like this "Gulf Coastal Plains and Ozarks Landscape Conservation Cooperative", etc.

I think it might be nice to have a time-stamp in the title to keep it clear that this isn't the 2010 review for people looking at this in ten years, so what about "2015 GR Sage-grouse Status Review"? It isn't real short, but I don't believe this will impact URLs that people would ever be typing (I think they'd just be clicking links).

Thanks, Lara! I'm not sure I'm as savvy as I should be, but I appreciate your letting me weigh in!

I think something along the lines of "Sage-Grouse Status" or "GSGstatus" or "Sage-Grouse Status Review" would be good.

As someone who hates long urls, I'd love to see something short and sweet- maybe with a longer caption? Don't know how LC Map works as far as those things go.

Thanks!
K

We will need a name for it, and we wanted to get your input on what would be a politically savvy name. You can see examples of other group's names here: https://www.sciencebase.gov/catalog/community/list
