Sorry for the difficulties with the links!

I've added you to a different user group, so hopefully that will do the trick.

Thanks for your patience and if there are any other issues, please let me know. I will make sure to include you on any future correspondence with Gary or Paul.

Thanks!
K

Please find below links to the previous briefing materials.

PRESENTATION:

This upcoming briefing will focus more specifically on how Structured Decision Making (SDM) will assist with our status review and how we wish to proceed with the modeling component of this work.

If you have any questions, Carey and I have been working with the Core Team and should be able to add greater context for next week's briefing.

Thanks and have a pleasant weekend,
Kate
