Subject: Re: National Policy Team review of SD RMP
Date: Monday, March 18, 2013 11:31:00 AM

Hey Terry,
I hope you don't feel like I am pestering or pressuring you for comments! My bosses just want to make sure that we get them in time to digest and respond if needed prior to the NPT meeting. Can you let me know when you anticipate having the comments for us?
Thanks - John

> I would like to touch base with both of you sooner than later to see if there might be any issues with the SD RMP's range of alternatives and incorporation of sage-grouse conservation measures prior to the NPT meeting. Could you give me call at your

convenience and let me know? We are try to make sure that we don't have any surprises at this level of review so that we can get this draft out in a timely fashion. Bill, I know you are still probably waiting for comments from other agencies, but if you have any info I could pass on to our state director that would be great. Terry, I guess I am looking for what you might tell Noreen when she asks for your input to see if there is something that would could come to a resolution/understanding on before it is brought out in the meeting. Thanks to both of you for all your help and putting up with our short deadlines and our timelines. We really appreciate the time you are able to provide to this effort.

I look forward to talking to both of you soon. Take care - John
