> Terry/Mike/Mary, here is an e-mail I have sent to Noreen for consideration of the meeting next week. If you have any thoughts let us know. I hope to discuss on Friday. The meeting times have been quite a bit in flux. No sure when folks are getting in but the proposed schedule now from the RD's is 8:00 or 9:00 in the morning and going until 5:00. It will be just RD and ARD in the morning and I have strongly requested some technical presence in the form of Nicole, Pat, and Kevin in the afternoon to discuss examples but not to get into the weeds. Let me know you thoughts.

have tried to lay out a goal, a draft agenda, some thought stimulating questions that folks can think about before they come, and some decision points that we might use to engage the RD's through time. This clearly is a representation of what we have heard and interpreted from you all along with some of our own thoughts on what we (the team) might need as well. I am going to share
under separate cover with the ARD's shortly to get their final feedback as well. Please let me know if we are on target and how best you would like to distribute.

Mike

Goal

The purpose of this meeting is to identify the process by which we will complete the 2015 Greater Sage-Grouse Status Review.

We will discuss expectations of Regional Directors and Assistant Regional Directors with regard to management structure and communication. We will also consider the best tools to employ for the review of the greater sage-grouse.

Good Afternoon,

In preparation for next week's meeting in Denver, please find the following attachments:

- Agenda
- Questions for your Consideration
- Possible Briefing Schedule

We'd greatly appreciate your consideration of these documents, particularly the questions, prior to our discussion.

In addition to these materials, we will also be providing an overview of 2015 approach and a PowerPoint presentation. These will be provided to you prior to the meeting.

Thank you,
Mike Thabault

P.S. All materials for this meeting can be found on the SharePoint Portal:
