This group does not sound familiar to me. Not to say if there are local affiliates within states that a field office may have touched base with them at some point.

I know we've worked with a few of the state/local farm bureaus but the White House/CEQ is wondering, their email is below. Any guidance or more info. you can provide would be great. I don't have NFU on our lists but will add if you guys are working with them. I've also emailed Sarah Greenberger too.
