Will do and for the record I almost included that earlier; someday I'll actually achieve psychic status.

YES!

Can you add the Adaptive Management stalemate also?

Thank you

Hi. I want to try and get the next update done before the end of the week and offer the following topics for your consideration:

- FF meeting/outcomes, spec. FWS review of BLM DEISs - I have briefed Dan and Gary extensively on this so we can be brief, maybe emphasize the process we are following to ensure no surprises and consistency in our advice across the range
- BLM planning update (pending mass rollout)
- TF self-assessment status
- MTT status, including potential nexus to BLM compensatory mitigation strategy – thoughts shared with BLM and soon to be shared with EOC and TF

Please let me know if these topics resonate and/or I should capture other items. One page is the goal. Thanks.
