>> First, I just realized that I provided the wrong call in number on the email I sent about the GIS Team meeting yesterday. The calendar invite number was correct and most of the folks called in using that, so it wasn't until later that I figured out my mistake. I hope you didn't try to call in with the incorrect number and miss the call because of me. The notes from the meeting are here: https://docs.google.com/a/doi.gov/document/d/1pJ5L2_VtgQgLg_ulvYs0Z-bsQAcolWdnTc_NxOIx-x0/edit?usp=sharing
>>
>> Second, just a heads up that I am running a simple prototype Maxent model for probability of wind development across the west to help Bridget with her pipit wind question. I thought this model could be useful for Sage-grouse/wind questions as well. It most certainly will need to be tweaked/reviewed etc., but it could be useful as a starting point.
