Thanks. I do plan to attend Friday and am particularly interested in the communications discussion. Brent Lawrence from R1 EA will attend the meeting starting tomorrow (Terry thought this would be a good way for him to get up to speed on various SG issues). mk

Hi Noreen--please let me know who you would to serve as the spokesperson for this effort. Since I will be back next week, I can serve in the role if you prefer. Just let know know your thoughts. Thanks!

> As I think you are aware, next week most of the major players on the Greater Sage-Grouse issue will be meeting to discuss next steps. By the end of October all of the 15 EISs associated with this effort should be released to the public for comment. The team leading this effort would like to issue a "status report" press release at that time. This is one of the leading topics for discussion at next week's meeting.
> I have prepared a rough draft of a possible release, as well as associated talking points and a draft list of press contacts/spokespeople, all of which are

attached. ⍰Could you please review these for me and provide any input, edits, etc. by COB Thursday the 19th? ⍰I am especially interested in your confirming who you would like to serve as your agency's chief public spokesperson or persons. ⍰You'll note that I've included space for quotes in the press release for whoever it is you identify. ⍰We really need to have Forest Service appropriately represented here. ⍰Given the very different role that the FWS is playing in this effort, I understand you may not feel it appropriate to make a public comment at this time. ⍰Just let me know that's the case.

Thanks for your help on this. ⍰

P.S. - ⍰It has been a very interesting morning here in our offices just across from the Navy Yard. ⍰I'd meant to send this out first thing, but with the dozens, maybe even more than 100, of emergency vehicles zooming in and out ot the neighborhood, I've found myself somewhat distracted to say the least.
