Yep; The framework is standardized in the sdm world, but the application to our particular decision has not be built. k

Hi Kevin, On the 2nd to last bullet in the notes, I'll be attending the NCTC course Structured Decision Making in Oct. I think others have likely taken that or a course like it. Those frameworks are out there, but understanding how to set that up for the decision(s) we need to make is key. Hope you have a good weekend.

1. You have initiated a poll "Conservation Assessment Framework" at Doodle. The link to your poll is:

http://doodle.com/rkd7duifbpsgid4s

Share this link with all those who should cast their votes. Do not forget to cast your vote, too. (If you did not initiate this poll, somebody must accidentally have used your e-mail address; simply ignore this e-mail, please.)

2. Please use **Track Changes** to edit the notes for anything I missed, and return at your earliest convenience. If I don't hear back by next Wednesday, then I'll assume you had no changes. I'll include the 2 attachments in the final notes.

If anyone notices I overlooked someone on the list, please forward this to them. Thanks everyone and have a terrific weekend.
