Thank you Carol, I really appreciate your support!

We will be good to provide the admin support as soon as we get that position filled.

Again, thanks for your support and partnership.

Noreen

> Noreen – We wanted to follow-up with you on our discussion earlier this week about our mutual support for sage-grouse. We want to thank you for providing the logistical and administrative support for the SDM. This will be a big help. I did talk to Robyn about making Steve Morey available to help. She agreed depending on checking on his workload associated with wolverine. We are setting aside funding to lead the SDM, about $260K spread between 2014/2015. Everything seems to be moving along well with the USGS leads: Sarah Converse (PWRC) and Dave Smith (Leetown). I know they have been having discussions with your folks so hope we are on track.

> We will follow-up on your other request for a coordinator to work with Ken Meyer's group on identifying gaps and determining if gaps are being addressed. We're also looking into Steve Torbit and Tom Remington's request that we provide additional funding for two of the LCC projects that they are unable to fund. We'll let you know if we can help on either front.
