Pat,

Any resolution as to schedules and a potential date to meet in Cheyenne? I hope your surgery went well!!!!

Hello Nick -

I received your voice mail - my apologies but I'm snowed in still from the 2 feet of snow we got Sunday and Monday. Mark is out of town, so I will check with him when he returns. My schedule is pretty limited for the next 6 weeks or so as I am having knee surgery and will be out for a few weeks, then on travel for 2 weeks after that. I will check with Mark and see if we can squeeze something in before then.

Be in touch soon!

Pat

Mark and Pat,

Dave Applegate and myself recently met in Portland with some of your colleagues on the forthcoming Rangewide mitigation framework for sage-grouse. Anadarko has spent the past year in review of the sage-grouse issue and has developed some unique detail and information that we think FWS would find valuable in its review for the upcoming listing decision under the ESA. We would like to find some time to meet with you both in Cheyenne to give a

presentation on this detail, discussing some of the academic studies we have commissioned, peer reviewed research Anadarko has sponsored that is yet forthcoming, and articles we have recently submitted that are currently in review. Please let me know some potential dates/times that would work to come up and talk further. We'd be looking for an hour and a half or two hours of your time.

Thanks.
