Mary,

That sounds like a good idea. Doug and I just discussed, and we can meet at your convenience. It would be very helpful if someone from Marine Mammals can join us so we can make sure our recommendations match those from the MMPA side of the house as much as possible. If you would like, I can look at your calendar and send you an invite (I copied Melissa and Drew in case they would like to weigh in).

Thanks! Hope your day is going well,
Catherine
