Subject: [EXTERNAL] USFWS BA Discussion
Importance: High

All,

We had a very productive meeting yesterday and got through a lot of the document. Let's all do an in-depth dive of the BA during the next few weeks, and then mid-January we can get together and discuss any changes that we think need to be made to the document. I anticipate being able to get everything on the table during this January meeting, after which I hope to be able to take necessary changes to the contractor to get the BA finalized for initiation.

We will be meeting at the Campbell Creek field office like we did previously.

You have been invited to the following event.
