Importance: High

Hi All,

Thanks for a great discussion yesterday regarding the Pebble Mine Project and our opportunity to recommend species-specific avoidance and mitigation measures for MMPA- and ESA-protected species potentially impacted by the project. Based on those discussions and the guidance provided by Mary, I've pulled together the following timeline to help us deliver a finalized letter to USACE by Monday, July 8.

Timeline

- MMM submits a list of avoidance and minimization measures to Catherine and Melissa (Monday, June 24)
- AFWCO submits a draft letter for Mary's review and signature (Monday, July 1)
- Final letter submitted to USACOE (Monday, July 8)

Please let me know if you have any questions or concerns about the timeline as presented.

Thanks,

Melissa
