Subject: [EXTERNAL] Pebble Project ESA Section 7 Meeting
Date: Friday, October 11, 2019 6:31:07 PM
Importance: High

All,

As we have previously discussed, we are interested in working with the USFWS early and often as necessary to ensure that formal consultation is a smooth process. As such, we envision collaborative working groups engaging in topic-specific meetings as needed throughout the ESA Section 7 process. We would like to start this off with a kick off meeting as early as the end of next week if possible. The USACE is available October 18th, Friday morning until 12:30pm. Based on our proposed agenda (see below), we believe that 2 hours should be a sufficient length for a meeting. Please let us know if Friday morning works for you; if not, our schedule would dictate kicking it out to the next week.

Our proposed draft meeting agenda for this kickoff meeting:
-Proposed project changes since the DEIS
-Changes to the BA incorporating the revised proposed project and the new ESA Regulations
-Organization of the document - soliciting input regarding the current structure of the document
-Discussion of potential topics for additional meetings/working groups
-Discussion of timelines/schedule of engagements
-Collaboration plan

Please let us know if you have any comments or suggestions for the agenda, in addition to your availability for next Friday. Note that I will be out of the office until Thursday of next week, however, when you respond to this shared Pebble email address (POASpecialProjects@usace.army.mil), Shane will be able to coordinate and schedule the meeting.

v/r,

Heather N. Markway
Project Manager
