Dale:

Thank you for providing me a memorandum summarizing the results of the review by the Fish and Wildlife Service of work products that involved former Deputy Assistant Secretary Julie MacDonald. I appreciate the diligence and thoroughness of you and your staff in all FWS Regions as you undertook this evaluation. You indicate in your memo that you will be instructing "the Regions to, within a reasonable time, re-evaluate the questions posed under each of these actions." I look forward to the results of that process. Please extend my thanks to the FWS employees for their professionalism in completing this assignment. I also appreciate the leadership that you have shown in upholding the scientific integrity of the work of the Fish and Wildlife Service.

Lynn
