

United States Department of the Interior
FISH AND WILDLIFE SERVICE
Fire Management Branch
National Interagency Fire Center
3833 South Development Avenue
Boise, Idaho 83705

September 30, 2008

To: Regional Director, Region 1
From: *Adrian* Chief, Fire Management Branch, Boise, Idaho
Subject: Approval – 243 BAR Plan

It is obvious that the refuge worked hard to put this plans together. An in-depth review of the plan was completed by Fire Management Branch staff and revealed some implementation, planning and a policy issue that require resolution. The following treatments and activities are approved.

OBLIGATION FY	TREATMENT/ACTIVITY	TOTAL
2009	Native Seed Collection	\$11,439
	Native Seeding	\$404,749
	Non-native Invasive Species Control	\$57,508
	Re-vegetation invasive species control	\$268,793
	2009 Total	\$742,489
	Grand Total	\$742,489

The beginning of the fiscal year the Department of the Interior prioritizes fiscal year planned BAR treatments/projects and allocates funding to the bureaus based on those priorities.

If you have questions or need additional information pertaining to this plan or post-wildfire recovery policy and process, please contact Bill Leenhouts – National Burned Area Emergency Response Coordinator - in this office at 208-387-5584.
