Program Highlights:

Monday May 20

- Keynote Speaker
- USP updates on veterinary-related activities
- Bioanalytical Method Validation Session
- Poster Session and Reception

Tuesday May 21

- Pharmacology Teaching Initiative
- Modeling and Simulation Session
- Pharmacokinetic Tools for addressing challenges in veterinary pharmacology
- Awards Banquet and Silent Auction

Wednesday May 22

Understanding Drug Labels

Wednesday May 22-Thursday May 23rd

Drugs for Use in Animal Feeds Workshop

- What you need to know when working toward approval
- Blue Bird labeling
- Labeling and Manufacturing issues
- ADAA combinations
The purpose of the Resident/Graduate Student Pharmacology Research Award is to recognize research excellence in clinical and/or basic pharmacology for residents and graduate students. A winning poster research presentation will be identified during the AAVPT Biennial Symposium.

To be eligible for the Resident/Graduate Student Pharmacology Research Award, candidates must have completed their research under one of the following conditions: 1) while in training for qualification to sit the ACVCP exam; 2) as a resident/graduate student while being mentored by an ACVCP diplomate; or 3) as student member of AAVPT while in a graduate program under the guidance of an AAVPT Fellow. The abstract must be submitted BEFORE the candidate has become certified as a Diplomate of ACVCP, or in the case of a graduate student, before the graduate degree is awarded. A poster presentation of the research must be presented at the AAVPT Biennial Symposium. Copies of abstracts accepted for consideration must be forwarded to the Chair of the AAVPT Awards Committee with a letter from the nominee's mentor confirming eligibility by April 1, 2013. Electronic or hardcopy submissions will be accepted.

The award is $1,000 (US) and accompanied by a certificate signed by the officers of the ACVCP and AAVPT.

Abstracts not conforming to the AAVPT guidelines by the deadline will be returned to the author for correction before consideration for presentation at the Symposium.

Edits: Abstracts will be copy proofed by the AAVPT 18th Biennial Symposium Program Committee. The AAVPT will communicate with the author to ensure that editing will not change content or meaning. Keywords are subject to approval, and revision, by the editors. If more extensive editing is deemed necessary, the abstract will be returned for appropriate changes.

If changes are made, a proof will be sent to you and you will have a short period of time to confirm that the formatting is correct; however, please note that content revision will not be allowed.

Copyright agreement: The author grants unlimited and nonexclusive copyright ownership of the materials contained in the submitted abstract to the AAVPT. Unlimited means that the author agrees that the AAVPT may use various modes of distribution, including online and CD-ROM electronic distribution formats. “Nonexclusive” means that the AAVPT grants to the author an unlimited right to subsequently reuse the submitted materials.

Please direct questions about the Poster Session and Resident/Graduate student award to:
