

## Amphibian and Reptile Checklist

Amphibians and Reptiles observed or predicted to occur on the Little Pend Oreille National Wildlife Refuge.

- Status:  
 FE Federally listed endangered species  
 FT Federally listed threatened species  
 FC Species of concern  
 SE State listed endangered species  
 ST State listed threatened species  
 SC State listed candidate species  
 SM State listed monitor species  
 SMC USFWS Region 1 species of management concern  
 PIF Bird species identified by Partner's in Flight program as being of extremely or moderately high conservation concern

- Source:  
 1 Species both projected by GAP analysis to reproduce on the LPO and have been observed on the LPO.  
 2 Species not projected by GAP analysis to reproduce on the LPO, but have been observed on the Refuge.  
*Not necessarily breeding.*  
 3 Species projected by GAP analysis to breed on the LPO, but have not been observed on the Refuge

| <u>Common Name</u>                    | <u>Scientific Name</u>         | <u>Federal or State Listing</u> | <u>Source</u> |
|---------------------------------------|--------------------------------|---------------------------------|---------------|
| <b><u>Amphibians and Reptiles</u></b> |                                |                                 |               |
| Tiger Salamander                      | <i>Ambystoma tigrinum</i>      | SM                              | 1             |
| Long-toed Salamander                  | <i>Ambystoma macrodactylum</i> |                                 | 1             |
| Western Toad                          | <i>Bufo boreas</i>             |                                 | 1             |
| Pacific Treefrog                      | <i>Hyla regilla</i>            |                                 | 1             |
| Columbia Spotted Frog                 | <i>Rana luteiventris</i>       | FC, SC                          | 1             |
| Painted Turtle                        | <i>Chrysemys picta</i>         |                                 | 2             |
| Northern Alligator Lizard             | <i>Elgaria coerulea</i>        |                                 | 3             |
| Western Skink                         | <i>Eumeces skiltonianus</i>    |                                 | 1             |
| Rubber Boa                            | <i>Charina bottae</i>          |                                 | 1             |
| Racer                                 | <i>Coluber constrictor</i>     |                                 | 3             |
| Gopher Snake                          | <i>Pituophis catenifer</i>     |                                 | 1             |
| Western Terrestrial Garter Snake      | <i>Thamnophis elegans</i>      |                                 | 1             |
| Common Garter Snake                   | <i>Thamnophis sirtalis</i>     |                                 | 1             |
| Western Rattlesnake                   | <i>Crotalus viridis</i>        |                                 | 3             |
