Acknowledgments

Because it will serve as a guide to Refuge management for the next 15 years, public input into the Comprehensive Conservation Plan is vital. The Shiawassee National Wildlife Refuge staff and the planning team are grateful to all of the people who have contributed their time, expertise and ideas through open houses, focus group discussions, and written comments. All of your ideas have been valuable and will contribute to the success of this plan.

We are especially grateful to Kim LeBlanc and Myles Willard for contributing the superb photographs that appear in this Comprehensive Conservation Plan. We thank the members of the Friends of Shiawassee National Wildlife Refuge for their help and dedication to the environment. And, finally, we are grateful to everyone who contributes time and energy as a Refuge volunteer. You are truly the backbone of conservation.

Contents

Acknowledgments	i
Chapter 1: Introduction and Background.....	1
Introduction	1
Refuge Purposes	1
The Refuge Mission	2
Purpose of and Need for the Plan	3
The U.S. Fish and Wildlife Service.....	3
The National Wildlife Refuge System	4
Existing Partnerships	5
Legal and Policy Guidance	5
Chapter 2: The Planning Process	6
Introduction	6
Issues.....	6
Public Use Issues.....	6
Resource Protection Issues	7
Maintenance Issues	7
General Issues	7
Geographic/Ecosystem Setting.....	8
The Great Lakes Basin Ecosystem	8
Chapter 3: The Refuge Environment.....	8
The Saginaw Bay Watershed	9
Migratory Bird Conservation Initiatives	10
Nongame Bird Conservation Initiatives	10
North American Waterfowl Management Plan	11
Michigan Wetland Management District	12
Introduction and Background	12
Waterfowl Production Area Resources	13
Additional Responsibilities	14
Future Management	14
Region 3 Fish & Wildlife Resource Conservation Priorities.....	15
Refuge Resources, Cultural Values and Uses	15
General	15
Geology and Minerals	17
Soils	17
Water and Hydrology	17
History of Water Management and Flood Control	18
Fish, Wildlife and Plant Resources	21
Vegetation	21
Birds	21
Mammals	24
Reptiles and Amphibians	25
Threatened and Endangered Species.....	25
Fish	25
Invertebrates	27
Land Use	27
Mosquito Control	27

Contaminants	27
Socioeconomic and Political Environment	28
Cultural Resources	29
Public Use	29
Special Management Topics	30
Wilderness Review	30
Saginaw River and Bay Natural Resource Damage Assessment Settlement	30
Chapter 4: Refuge Management	31
Current Refuge Programs	31
Habitat Management	31
Wetland Management	31
Moist Soil Units	31
Marshes	33
Open Water Pools	33
Greentree Reservoirs	33
Forests	34
Croplands	34
Grasslands	34
Fish and Wildlife Monitoring	34
Waterfowl	34
Marsh Birds and Shorebirds	35
