Wildlife Wednesdays

Wed. Nights

June, July and Aug. 7:00pm-9:30pm

Join us Wednesdays this month for an evening guided auto tour of the Refuge backcountry. We'll be on the lookout for a variety of wildlife, while sharing refuge history and management practices.

Amateur Photo Tours

Thursday, June 11, 18 & 25 7:00am

There are some things that naturally go together like mom and apple pie, peanut butter and jelly sandwiches, and photography and the Seney National Wildlife Refuge. The Refuge offers an amazing diversity of birds and wildlife as well as lots of landscapes that beg to be photographed. With that in mind, use this opportunity to join up with other amateur photographers to explore the refuge, look for great shots, and share photos and skills. You should have a working knowledge of your equipment and come prepared for a variety of weather and bug conditions.

Guided Auto Tours

Tuesday, June 16 & 30 10:00am

Friday, June 26 10:00am

Enjoy a casual outing into the backcountry with a member of our seasonal staff. A great opportunity to check out the habitats behind the gates. Tours last approximately 2 hours.

Who's Croakin'?

Saturday, June 6 3:00pm

Michigan is home to 13 species of frogs. Which ones are calling in your neighborhood? Join us to learn some frog calls and fun frog facts.

Who-o-o Knows Owls?

Monday, June 15 9:00pm

This program will take a look at these specialized creatures to discover what adaptations make them one of the most efficient creatures of the night. Presentation followed by a chance to call in one of the many owls found at the Refuge.

Northwoods Ethnobotany

Thursday, June 11 11:00am

Wednesday, June 17 2:00pm

Sunday, June 28 3:00pm

Ethnobotany "the plant lore of indigenous cultures". Ever wonder how a plant got it's name or what it has been used for? Join this short guided walk for an introduction to some of the historical uses of local plants.

Seney's Arial Anglers

Sunday, June 14 & 21 3:00pm

Nature's master angler doesn't use a rod and reel. Come find out more about the osprey, and how this unique bird catches its marine cuisine.
