

# **Appendix D: Compatibility Determinations**

## Compatibility Determinations

In accordance with the Refuge Improvement Act of 1997, no uses for which the Service has authority to regulate may be allowed on a unit of Refuge System unless it is determined to be compatible. A compatible use is a use that, in the sound professional judgment of the refuge manager, will not materially interfere with or detract from the fulfillment of the National Wildlife Refuge System mission or the purposes of the national wildlife refuge. Managers must complete a written compatibility determination for each use, or collection of like-uses, that is signed by the manager and the Regional Chief of Refuges in the respective Service region.

Final compatibility determinations were signed following release of the Record of Decision and are available for viewing at the Refuge office. A list of compatibility determinations, a list of future uses that will require a case-by-case compatibility determination, and a list of uses that are generally prohibited and therefore not subject to compatibility follows:
