

Peer Review of Scientific Information Checklist

1. Title: Bioenergy and Wildlife: Threats and Opportunities for Grassland Conservation
2. Description: This manuscript discusses the loss of wildlife habitat due to current bioenergy production and presents alternatives for sustainable bioenergy production that are compatible with wildlife.
3. Estimated dissemination date of the final version of the document: July 2009
4. Kind of peer review that will be conducted: Individual letters from reviewers selected by editor of scientific journal
5. Anticipated number of reviewers: 4
6. Reviewer selection method: Reviewers selected by journal
7. Primary disciplines or expertise needed in the review: Reviewers will have expertise grassland wildlife habitat and bioenergy production.
8. Estimated start date of peer review: January 2009
9. Opportunities for the public to comment on the work product to be peer reviewed: Public comment will not be sought, but the public may comment via letters to the editor of the journal after publication.
10. Indicate whether the public, including scientific or professional organizations, will be asked to nominate potential peer reviewers: The public, including scientific and professional organizations will not be asked to nominate potential peer reviewers. Peer reviewers will be selected by the editor of the scientific journal.
