

Peer Review of Scientific Information Checklist

1. Title: Predicting Wood Duck Harvest Rates in Eastern North America
2. Description: This manuscript presents techniques for predicting changes in wood duck harvest rates as a result of harvest regulations changes.
3. Estimated dissemination date of the final version of the document: September 2009
4. Kind of peer review that will be conducted: Individual letters from reviewers selected by the editor of the scientific journal and by the Georgia Department of Natural Resources during internal peer review.
5. Anticipated number of reviewers: 4
6. Reviewer selection method: Reviewers will be selected by journal or by Georgia Department of Natural Resources following standard protocols.
7. Primary disciplines or expertise needed in the review: Reviewers will have expertise in waterfowl ecology and the analysis of waterfowl harvest and banding data.
8. Estimated start date of peer review: January 15, 2009
9. Opportunities for the public to comment on the work product to be peer reviewed: Public comment will not be sought, but the public may comment via letters to the editor of the journal after publication.
10. Indicate whether the public, including scientific or professional organizations, will be asked to nominate potential peer reviewers: The public, including scientific and professional organizations will not be asked to nominate potential peer reviewers. Peer reviewers will be selected by the editor of the scientific journal.
