III. Project Summary:

The Price-Stubb Diversion Dam is located on the Colorado River approximately one mile upstream from Palisade, CO. The diversion dam is an impediment to upstream movement of native and non-native fish. The project consists of constructing a rock channel fish passage.

IV. Study Schedule:

Construction is scheduled to be completed in April 2008.

V. Relationship to RIPRAP:

Colorado River Action Plan: Mainstem
II.B.2. Restore fish passage at Price-Stubb

VI. Accomplishment of FY 2007 Tasks and Deliverables, Discussion of Initial Findings and Shortcomings:

A number of contentious issues regarding the cost of the whitewater park, construction permits and easements have been encountered and addressed. Construction contract solicitation process was completed. A construction contract was awarded in March 2007, contractor mobilization completed and construction is ongoing.

VII. Recommendations:

Continue to provide construction management, quality control and contract administration services.

VIII. Project Status:

Project is on schedule for completion in April 2008.
