

This blue goose, designed by J.N. "Ding" Darling, is the symbol of the National Wildlife Refuge System.

National Elk Refuge

2011 Elk Hunting

Information and Regulations

General Information

Elk hunt management on the National Elk Refuge is designed to achieve optimum herd size as determined through a cooperative effort between National Elk Refuge, Grand Teton National Park, and Wyoming Game & Fish Department managers.

In previous seasons, the National Elk Refuge has held both a North Unit hunt and a South Unit limited range weapons hunt, and hunters needed to apply for a specific unit during the application process. *This season, hunters do not need to apply for a specific unit. All National Elk Refuge permits will be valid for either hunt unit, but hunters must understand and comply with weapons restrictions based on the area where they will be hunting.* See the section entitled "On-Line Permit Application" for further information on obtaining a permit.

Elk hunting on the National Elk Refuge (Hunt Area 77) is permitted from October 8 through December 11, 2011, unless the season for Hunt Area 77 closes earlier.

Nine hunt periods will be available to hunters. Hunt periods are one week long, with the exception of Period #2 which includes two extra days:

- Period #1: October 8 - 14
- Period #2: October 15 - 23
- Period #3: October 24 - 30
- Period #4: October 31 - November 6
- Period #5: November 7 - 13
- Period #6: November 14 - 20
- Period #7: November 21 - 27
- Period #8: November 28 - December 4
- Period #9: December 5 - 11

"Any Elk" permits will be issued during the first hunt period (October 8 - 14) for persons hunting in the North Unit; "Antlerless Only" permits will be issued for the remaining eight hunt periods (October 15 through December 11). As in previous years, South Unit hunters are limited to antlerless only elk during all nine hunt

periods. Limited quota cow/calf licenses (Type 6) are excluded during "Any Elk" week.

Application Information

To apply for an elk hunting permit to hunt on the National Elk Refuge, hunters must complete an application on-line (see On-Line Permit Application) between August 16 - September 27, initially applying for only one hunt period. The results of the computerized random draw will be posted on the application web site by September 30.

On September 30, the on-line system will continue to be active to allow access to any permits that were not issued during the initial random draw. Any unissued (leftover) permits will be available on a first-come, first-served basis. Persons who were successful for one hunt period during the September 30 drawing may reapply for a first-come, first-served leftover permit valid for another hunt period.

Permit holders with two valid Wyoming elk hunting licenses may use and fill both licenses while hunting on the Refuge. Hunters attempting to fill two valid licenses during the same hunt period do not need to apply for two Refuge permits.

On-Line Permit Application

The application process for National Elk Refuge elk hunting permits is conducted in cooperation with the Wyoming Game & Fish Department Private Lands Public Wildlife Access Program. Applications are available at <http://gf.state.wy.us/plpwhmprogram/frnHunterManagementHome.aspx>. Click on "Apply for, reprint, or correct an HMA permission slip" to begin the application process.

For a direct link to the web site, visit the National Elk Refuge's web page at <http://www.fws.gov/nationalelkrefuge>, and

click on "Apply for a National Elk Refuge Elk Hunting Permit." Hunters do not need to distinguish whether they will be hunting in the North Unit or the South Unit Limited Range Weapons area; a valid permit will be applicable for either hunt area.

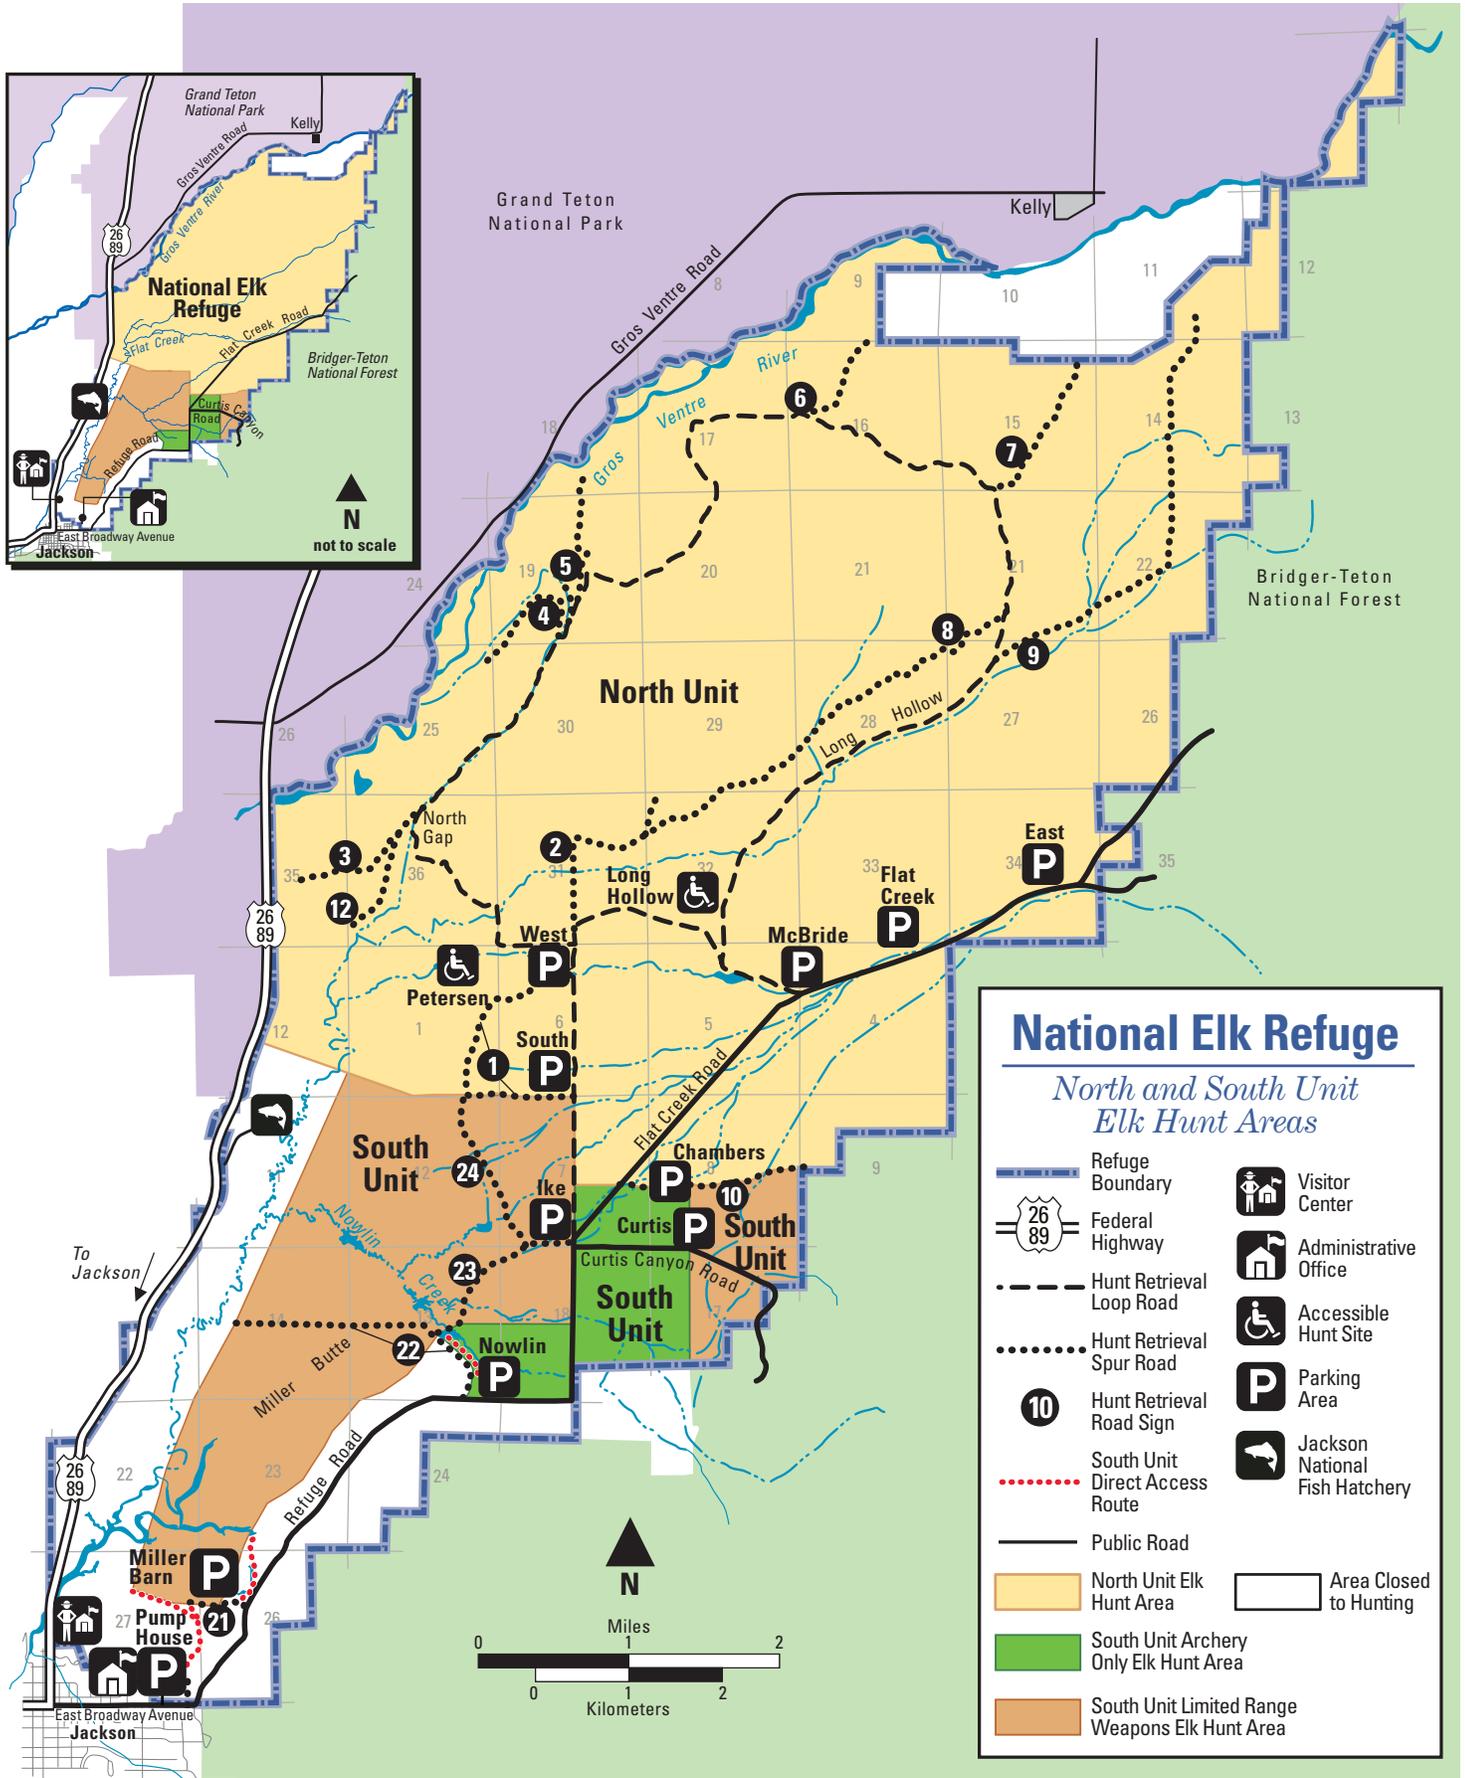

Alternate Permits

Alternate permits differ from leftover permits, because alternate permits do not become available until immediately after the season has begun and remain available at varying times throughout the season. These permits help Refuge managers ensure that the harvest is adequate to achieve the optimum healthy herd size. Alternate permits will be available for each period of the hunt season, excluding the first hunt period of October 8 - 14. The number of alternate permits issued will vary, depending on hunter harvest rates and participation. The approximate number of alternate permits available includes:

- October 8 - 14: no alternates
- October 15 - 23: 90 alternates
- October 24 - 30: 90 alternates
- October 31 - November 6: 90 alternates
- November 7 - 13: 90 alternates
- November 14 - 20: 90 alternates
- November 21 - 27: 90 alternates
- November 28 - December 4: 50 alternates
- December 5 - 11: 50 alternates

Alternate permits will be available on a first-come, first-served basis beginning at 9:00 am Mountain Time each Monday and Wednesday from October 17 through December 7. These permits will be issued through the same on-line system outlined above (See On-Line Permit Application).

To disperse hunters over the hunt period, half of the alternate permits issued will be valid for Monday through Friday of the respective week, and the remaining half will be valid for Wednesday through Sunday of the same week.

Individuals who were already successful in obtaining a permit for another hunt period may still apply for an alternate permit.

Alternate permits are usually distributed quickly, often within minutes of the 9:00 am time they become available. If the National Elk Refuge is not listed on the drop-down menu on the application web site, all permits have been issued for that hunt period.

Special Regulations for Elk Hunting on the National Elk Refuge (Hunt Area 77)

- All State of Wyoming hunting regulations (available online at <http://gf.state.wy.us/admin/Regs/index.asp>) are in effect and will be enforced. Hunters must review all regulations prior to hunting on the Refuge. Hunting permits may be revoked in the event of improper hunter conduct or violation of regulations, and future Refuge hunting privileges could be denied.
- Hunters are responsible for knowing and observing hunt boundaries (see map). Much of the North and South Unit hunt boundaries are identified by signs and posts. The North Unit hunt area is bounded on the west by the Highway 26/89 fence line and on the north by the south bank of the Gros Ventre River main channel.
- The following items must be in the hunter's possession while elk hunting on the Refuge:
 - Refuge elk hunting permit
 - Valid State hunting license
 - Valid Hunter Safety or Instructor Card or certificate for persons born on or after January 1, 1966
 - Wyoming Conservation Stamp
 - Wyoming Elk Feed Ground Special Management Permit
- Legal shooting times are from one-half hour before sunrise to one-half hour after sunset.
- Fluorescent orange exterior garments as defined by State regulations must be worn by anyone in a hunt area.
- Only one person without a permit may accompany a hunter and must stay with the hunter at all times.

- Persons may only discharge firearms while actively hunting with a valid Refuge permit in accordance with refuge regulations (50 CFR 27.42 and specific refuge regulations in 50 CFR Part 32).
- Hunters are limited to a maximum of seven cartridges in possession per day per license in either hunt unit.
- Certified weed-free livestock feed is required on the Refuge.
- Hunters are only allowed into hunt areas on the dates listed on their valid permit.
- The North and South Unit hunt areas each have distinct weapons that are allowed. Hunters are responsible for knowing which weapons can be used in the hunt area they are accessing:

South Unit

- South Unit hunters are restricted to limited range weapons, including muzzle-loading rifles and archery equipment as defined by the Wyoming Game & Fish Department, or shotguns with slugs.
- All handguns must meet the Wyoming Game & Fish Department's definition of a legal firearm for the taking of big game and must use straight-walled cartridges with a barrel length no longer than 12 inches.
- Using rifles that shoot black powder cartridges is prohibited in the South Unit.

North Unit

- North Unit hunters may hunt with any legal weapon as defined by the Wyoming Game & Fish Department for the taking of big game, including rifles, hand guns, black powder firearms, and archery equipment.

Prohibited activities include:

- Parking along Refuge roads
- Pursuing or following elk by vehicle, including between parking areas
- Target or practice shooting
- Shooting wildlife other than elk without a permit
- Shooting from parking areas or Refuge roads
- Overnight camping or parking, including in the parking lots or hunt areas
- Use or possession of alcoholic beverages while hunting
- Collection of specimens, including but not limited to antlers, skulls, and artifacts.

Additional Regulations for Archery Hunting on the Refuge

- In addition to a valid Wyoming elk license, a Wyoming archery hunting license is required for all persons archery hunting on the Refuge.
- Archery hunters on the Refuge must wear a fluorescent orange exterior garment as defined by State regulations.
- Hunters within the archery only hunt area (see map) must maintain a minimum distance of 200 yards from residences.

Refuge Access and Travel

- Access to Refuge elk hunt areas is only allowed through the main Refuge entrance at the end of East Broadway Avenue in Jackson.
- Additional access points on North Highway 89 and the Gros Ventre Road are for use by permitted bison hunters only and cannot be used by hunters pursuing elk.
- Vehicles must be parked in one of the designated hunter parking areas on the Refuge.
- Hunters may not exit vehicles on roads between hunter parking areas.
- Most of the designated South Unit hunter parking areas are outside of the hunt boundary. Hunters must travel on the direct access route from the parking lot into the hunt area (see map). Other areas of the Refuge outside of the hunt boundaries are closed to hunter access and use.
- Motorized vehicle travel in a hunt area is prohibited except as noted in the section entitled "Retrieval of Harvested Animals."
- Horses and bicycles are permitted in a hunt area, but bicycles must remain on designated retrieval roads.
- ATVs must be titled and licensed and may only be driven on Refuge roads to one of the hunter parking areas. ATVs are not allowed on Refuge retrieval roads.

Youth Hunting

A special youth elk hunt is held in both the North and South Units during the first 2 days of the first hunt period, October 8 - 9, when permits for the North Unit will be issued only to youths age 12 - 17. All hunters, including youths, are restricted to antlerless only elk while hunting in the South Unit. Youths must be accompanied by an experienced non-hunting adult during the special youth elk hunt and will be subject to State and Refuge regulations.

During all other weeks of the elk hunting season:

- Youths age 12-13 may hunt in the North Unit, if they are accompanied by an experienced hunting or non-hunting adult.
- Youths age 14-17 may hunt in the North Unit but do not need to be accompanied by an adult.
- Youths age 12-17 may hunt in the South Unit if they are accompanied by an experienced hunting or non-hunting adult.

Additional age restrictions required by the State of Wyoming are in effect and will be enforced.

Retrieval of Harvested Animals

The following information will assist successful hunters in retrieval of elk:

- Retrieval of harvested elk may not occur before 2:00 pm. Designated retrieval roads will be open to vehicle travel to retrieve elk from 2:00 pm to dark.
- Elk should be dragged to the nearest retrieval road (see map). Hunters must return by the most direct route to the parking lot. Driving off designated roads is prohibited.
- Successful hunters may not transport other hunters into a hunt area. Only the successful hunter and helper(s) may be in the vehicle.
- The Refuge has wheeled carts and sleds available on a first- come, first-served basis at the Miller Barn in order to assist hunters.
- Commercial retrieval services are available for a fee. Current businesses authorized to operate on the Refuge are posted on the bulletin board at the Administrative Office.
- Ear tags and radio collars from harvested animals should be returned to the Administrative Office.
- Refuge roads or parking areas may be temporarily closed due to inclement weather or management considerations.

Web Updates

The National Elk Refuge will regularly post all hunting updates on the Refuge's web site at <http://www.fws.gov/nationalelkrefuge/NERHuntingRegs.htm>, including information on the permit application process, alternate permits, drawing times and dates, etc. Please check the web site for updates throughout the season.

Harvest Reports

A blank harvest report for the National Elk Refuge will be provided with your permit. Your completed harvest information is critical to the Refuge's hunting program. Please return the harvest report to one of the locations listed on the document.

Hunters With Disabilities

The National Elk Refuge encourages hunters with disabilities to participate in the elk hunt program and seeks to afford them reasonable accommodation for the activity.

Hunters who have both a Wyoming Game & Fish Disabled Hunter Permit and a National Elk Refuge permit are eligible to reserve a designated accessible hunt site. Reservations can be made at the Jackson Hole & Greater Yellowstone Visitor Center at 532 N. Cache Street in Jackson. A hunter with a Disabled Hunter Permit who does not have a reservation may use a designated accessible hunt site if the site is not occupied or reserved, but must comply with the Elk Hunting Procedures for Persons with Physical Disabilities (available at the Visitor Center).

Equal opportunity to participate in and benefit from programs and activities of the U.S. Fish and Wildlife Service is available to all individuals regardless of physical or mental ability. Dial 711 for a free connection to the State relay service for TTY and voice calls to and from the speech and hearing impaired. For more information or to address accessibility needs, please contact the Refuge staff at 307 / 733 9212, or the U.S. Department of the Interior, Office of Equal Opportunity, 1849 C Street, NW, Washington, D.C. 20240.

Chronic Wasting Disease Surveillance

The Wyoming Game & Fish Department will be conducting Chronic Wasting Disease surveillance again this season. Results from samples submitted by hunters can be tracked on-line. Contact patrol officers for further information.
