#### Profile

Established: 1974  
Staff: 3  
FY 2008 budget: \$350,321

#### Purpose

The Long Island Field Office works in partnership with other federal and state agencies, non-government organizations, and private landowners to conserve, protect and enhance fish and wildlife resources on Long Island and throughout New York City, Rockland and Westchester counties.

#### Management Activities

- Recover populations of federally listed threatened or endangered species
- Provide technical assistance to other federal agencies on fish and wildlife resource issues
- Promote public stewardship of fish and wildlife resources through education and information transfer
- Assist agencies in chemical and oil spill response

- Work with federal, state and local partners on fish and wildlife issues related to dredging, operation and maintenance of navigation channels, beneficial use of dredged material, beach nourishment and shoreline protection, habitat protection and conservation of endangered or threatened species
