FILM FESTIVAL
IN THE NATION'S CAPITAL**

THE GOAT THAT ATE TIME: (Award Winning Cartoon) Henry the Goat loves to eat, but doesn't have enough time. His solution-eat time itself! *Directed by Lucinda Schreiber.*

LOSING THE ELEPHANTS: Why are Asia's elephants sliding toward extinction, and why should we care? This film reveals these amazing animals more vividly than any visit to the zoo.

A MURDER OF CROWS: Crows are among the brightest animals in the world. This *NATURE* film shows these "feathered apes" as you have never seen them. Live raven and crow demonstration before and after the film.
