

for this action as described under

#### ADDRESSES.

#### B. Analytical Enforcement Methodology

An analytical method is not required for enforcement purposes for the reasons stated above and in the document entitled "Federal Food, Drug, and Cosmetic Act (FFDCA) Considerations for *Bacillus pumilus* strain BU F-33," and because the EPA is establishing an exemption from the requirement of a tolerance without any numerical limitation.

#### C. International Residue Limits

In making its tolerance decisions, the EPA seeks to harmonize U.S. tolerances with international standards whenever possible, consistent with U.S. food safety standards and agricultural practices. In this context, the EPA considers the international maximum residue limits (MRLs) established by the Codex Alimentarius Commission (Codex), as required by FFDCA section 408(b)(4). The Codex Alimentarius is a joint United Nations Food and Agriculture Organization/World Health Organization food standards program, and it is recognized as an international food safety standards-setting organization in trade agreements to which the United States is a party. The EPA may establish a tolerance that is different from a Codex MRL; however, FFDCA section 408(b)(4) requires that the EPA explain the reasons for departing from the Codex level.

The Codex has not established a MRL for *Bacillus pumilus* strain BU F-33.

#### IV. Statutory and Executive Order Reviews

This final rule establishes a tolerance exemption under FFDCA section 408(d) in response to a petition submitted to the EPA. The Office of Management and Budget (OMB) has exempted these types of actions from review under Executive Order 12866, entitled "Regulatory Planning and Review" (58 FR 51735, October 4, 1993). Because this final rule has been exempted from review under Executive Order 12866, this final rule is not subject to Executive Order 13211, entitled "Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use" (66 FR 28355, May 22, 2001), or Executive Order 13045, entitled "Protection of Children from Environmental Health Risks and Safety Risks" (62 FR 19885, April 23, 1997). This final rule does not contain any information collections subject to OMB approval under the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 *et seq.*), nor does it require any special considerations under

Executive Order 12898, entitled "Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations" (59 FR 7629, February 16, 1994).

Since tolerances and exemptions that are established on the basis of a petition under FFDCA section 408(d), such as the tolerance exemption in this final rule, do not require the issuance of a proposed rule, the requirements of the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 *et seq.*) do not apply.

This final rule directly regulates growers, food processors, food handlers, and food retailers, not States or tribes. As a result, this action does not alter the relationships or distribution of power and responsibilities established by Congress in the preemption provisions of FFDCA section 408(n)(4). As such, the EPA determined that this action will not have a substantial direct effect on States or tribal governments, on the relationship between the national government and the States or tribal governments, or on the distribution of power and responsibilities among the various levels of government or between the Federal Government and Indian tribes. Thus, the EPA determined that Executive Order 13132, entitled "Federalism" (64 FR 43255, August 10, 1999), and Executive Order 13175, entitled "Consultation and Coordination with Indian Tribal Governments" (65 FR 67249, November 9, 2000), do not apply to this final rule. In addition, this final rule does not impose any enforceable duty or contain any unfunded mandate as described under Title II of the Unfunded Mandates Reform Act of 1995 (UMRA) (2 U.S.C. 1501 *et seq.*).

This action does not involve any technical standards that would require the EPA's consideration of voluntary consensus standards pursuant to section 12(d) of the National Technology Transfer and Advancement Act of 1995 (NTTAA) (15 U.S.C. 272 note).

#### V. Congressional Review Act

Pursuant to the Congressional Review Act (5 U.S.C. 801 *et seq.*), the EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

#### Addresses of Regional Offices

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Final rule.

**SUMMARY:** We, the U.S. Fish and Wildlife Service (Service), are updating the names and addresses of our regional offices in our regulations at title 50 of the Code of Federal Regulations. We are also making other revisions to our regulations, such as updating the names and phone numbers of certain other Service offices. We are taking these actions to ensure regulated entities and the general public have accurate contact information for the Service's offices.

**DATES:** This rule is effective June 12, 2013.

**ADDRESSES:** This final rule is available on the Internet at <http://www.regulations.gov> under Docket No. FWS-HQ-BPHR-2012-0089.

**FOR FURTHER INFORMATION CONTACT:** Andrew Brown, 703-358-2179.

**SUPPLEMENTARY INFORMATION:** Section 2.2 of the regulations in title 50 of the Code of Federal Regulations (CFR) provides the names, geographic jurisdictions, and addresses of the Service's regional offices. Before publication of this rule, the names, geographic jurisdictions, and addresses of our regional offices had not been updated since 1998. This final rule updates the names and addresses of the regional offices for our Regions 1 through 7; removes California and Nevada from the geographic jurisdiction of our Region 1; and provides the name, geographic jurisdiction (California and Nevada), and address for our Region 8.

This final rule also revises regulations at 50 CFR parts 10, 13, 21, 29, 84, 85, and 100 that duplicate regional office addresses. To increase efficiency, reduce redundancy, and ensure that all information is accurate and up-to-date, we are removing duplicate addresses for our regional offices throughout our regulations. Instead, we refer the reader to 50 CFR 2.2 for the addresses of our regional offices. These revisions also include, where applicable, adding updated contact information, such as telephone and fax numbers, for Service offices. See the Regulation Promulgation section of this rule for the specific revisions we are making to these regulations.

Additionally, this final rule revises regulations at 50 CFR parts 84 and 85 that included an outdated name of a Service division. To provide accurate contact information, we are removing references to the "Division of Federal Aid," and replacing them with the current name of the program: Wildlife and Sport Fish Restoration. As well, this final rule revises regulations at 50 CFR parts 80, 84, and 85 that include an outdated name for the Service's Arlington office. We are removing references to the "Washington Office," and replacing them with the up-to-date name of the office: Headquarters. See the Regulation Promulgation section of this rule for the specific revisions we are making to these regulations.

Finally, we are correcting the authority citation for 50 CFR part 15 and revising, to reduce redundancy and correct sequence, the authority citations for 50 CFR parts 10, 21, and 29.

These actions are administrative in nature. We are providing regulated entities and the general public with accurate contact information for the Service's offices. Under 5 U.S.C. 553(b), rules of agency organization, procedure, or practice may be made final without previous notice to the public. This is a final rule. In addition, under 5 U.S.C. 553(d), we may make this rule effective

in less than 30 days if we have "good cause" to do so. The rule provides accurate contact information for our offices, and this action will benefit regulated entities and the general public. Therefore, we find that we have "good cause" to make this rule effective immediately.

#### Required Determinations

##### *Regulatory Planning and Review—Executive Orders 12866 and 13563*

Executive Order 12866 provides that the Office of Information and Regulatory Affairs (OIRA) will review all significant rules. The OIRA has determined that this rule is not significant.

Executive Order 13563 reaffirms the principles of E.O. 12866 while calling for improvements in the nation's regulatory system to promote predictability, to reduce uncertainty, and to use the best, most innovative, and least burdensome tools for achieving regulatory ends. The executive order directs agencies to consider regulatory approaches that reduce burdens and maintain flexibility and freedom of choice for the public where these approaches are relevant, feasible, and consistent with regulatory objectives. E.O. 13563 emphasizes further that regulations must be based on the best available science and that the rulemaking process must allow for public participation and an open exchange of ideas. We have developed this rule in a manner consistent with these requirements.

##### *Regulatory Flexibility Act (5 U.S.C. 601 et seq.)*

Under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*, as amended by the Small Business Regulatory Enforcement Fairness Act (SBREFA) of 1996 (Pub. L. 104-121)), whenever an agency is required to publish a notice of rulemaking for any proposed or final rule, it must prepare and make available for public comment a regulatory flexibility analysis that describes the effect of the rule on small entities (that is, small businesses, small organizations, and small government jurisdictions). However, no regulatory flexibility analysis is required if the head of an agency certifies the rule will not have a significant economic impact on a substantial number of small entities.

SBREFA amended the Regulatory Flexibility Act to require Federal agencies to provide the statement of the factual basis for certifying that a rule will not have a significant economic impact on a substantial number of small entities.

We have examined this rule's potential effects on small entities as required by the Regulatory Flexibility Act, and have determined that this action will not have a significant economic impact on a substantial number of small entities. This rule updates the contact information for our offices in our regulations in Title 50 of the Code of Federal Regulations. We are taking this action to ensure that regulated entities and the general public have accurate contact information for the Service's offices. This rule will not result in any costs or benefits to any entities, large or small.

Therefore, we certify that, because this rule will not have a significant economic effect on a substantial number of small entities, a regulatory flexibility analysis is not required.

This rule is not a major rule under the SBREFA (5 U.S.C. 804(2)). It will not have a significant economic impact on a substantial number of small entities.

a. This rule does not have an annual effect on the economy of \$100 million or more. There are no costs to any entities resulting from these revisions to the regulations.

b. This rule will not cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions. The updating of the Service's contact information does not affect costs or prices in any sector of the economy.

c. This rule will not have significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of U.S.-based enterprises to compete with foreign-based enterprises.

##### *Unfunded Mandates Reform Act*

In accordance with the Unfunded Mandates Reform Act (2 U.S.C. 1501 *et seq.*), we have determined the following:

a. This rule will not "significantly or uniquely" affect small governments in a negative way. A small government agency plan is not required.

b. This rule will not produce a Federal mandate of \$100 million or greater in any year. It is not a "significant regulatory action" under the Unfunded Mandates Reform Act.

##### *Takings*

Under the criteria outlined in E.O. 12630, this final rule does not have significant takings implications. This rule does not contain a provision for taking of private property. A takings implication assessment is not required.

*Federalism*

This rule does not have sufficient Federalism effects to warrant preparation of a federalism summary impact statement under E.O. 13132.

*Civil Justice Reform*

In accordance with E.O. 12988, the Office of the Solicitor has determined that the rule does not unduly burden the judicial system and meets the requirements of sections 3(a) and 3(b)(2) of the Order.

*Paperwork Reduction Act*

This rule does not contain any information collection that would require approval under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*). A Federal agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

*National Environmental Policy Act*

We evaluated the environmental impacts of the changes to the regulations, and determined that this rule does not have any environmental impacts.

*Government-to-Government Relationship With Tribes*

In accordance with the President's memorandum of April 29, 1994, "Government-to-Government Relations With Native American Tribal Governments" (59 FR 22951), Executive Order 13175, and 512 DM 2, we have evaluated potential effects on Federally recognized Indian Tribes and have determined that this rule will not interfere with Tribes' ability to manage themselves or their funds. This rule offers Tribes and the general public accurate contact information for our offices.

*Energy Supply, Distribution, or Use*

E.O. 13211 requires agencies to prepare Statements of Energy Effects when undertaking certain actions. Because this rule is administrative, it is not a significant regulatory action under E.O. 12866, and it will not significantly affect energy supplies, distribution, or use. Therefore, this action is not a significant energy action and no Statement of Energy Effects is required.

**SUPPLEMENTARY INFORMATION:**

**Background**

In the 2013 annual management measures for ocean salmon fisheries (78 FR 25865, May 3, 2013), NMFS announced the commercial and recreational fisheries in the area from the U.S./Canada Border to the U.S./Mexico Border, beginning May 1, 2013, and 2014 salmon seasons opening earlier than May 1, 2014. These management measures include a May-June guideline of 8,700 Chinook salmon
