

General Introduction

Bald Knob National Wildlife Refuge, established in 1993, is one of over 548 national wildlife refuges administered by the U.S. Fish and Wildlife Service. The primary objective of the refuge is to provide habitat for migratory waterfowl. The refuge is located in White County, Arkansas.

Public use, hunting, and fishing are allowed under carefully controlled conditions in order to maintain wildlife populations at levels compatible with the ecosystem. This permits the wise use of a valuable natural resource and provides wholesome recreational opportunities for the public. Users of the refuge must obey all signs pertaining to visitation, access, and public use regulations. All public uses, including hunting and fishing, are conducted in accordance with state and federal regulations as supplemented by the following special refuge regulations.

Access and Vehicle Use

The Farm Unit is closed to all other entry and public use November 14 – 15, 2009, during the Quota Gun Deer Hunt.

Waterfowl sanctuaries, indicated on the refuge map, are closed to all entry and public use from November 15 through February 28.

ATVs may only be used September 1 to February 28 and only to provide access for hunting. An ATV is defined as a vehicle with a maximum tire pressure of 15 psi, maximum dry weight of 1550 lbs., and with tires having a maximum centerline lug depth of one inch. Only those vehicles originally designed by their manufacturer to be ATVs are allowed; mini-trucks or other modified off-road vehicles are prohibited. Recreational use of ATVs is not allowed.

Conventional vehicles and ATVs are not allowed in fields and must stay on maintained roads, levee tops, or established parking areas at all times.

New this year: from November 15 – February 28 a portion of the waterfowl hunt area will be closed to ALL public entry and use after 1 pm to reduce waterfowl disturbance and improve hunt quality (see map). During this period Coal Chute Road, Granary West Road parking area, and Frackin Road will remain open to vehicular access.

Conventional vehicles must meet all applicable federal and state requirements regulating the use of licensed motor vehicles. Modified vehicles equipped with oversize tractor lug type tires are prohibited.

Most refuge roads are open to the general public. However, roads may be closed at any time road conditions or other administrative needs warrant. A locked gate or other

barrier, road closed sign, or no vehicle sign means the road is closed to ALL vehicle travel but not to foot travel unless signed otherwise.

Parking of vehicles on roadsides that prevents the passage of extra-wide farm equipment is prohibited. Vehicles are subject to be towed at owner’s expense.

Personal watercraft (jet-ski, etc), hover craft, and airboats are prohibited. Horses/mules are prohibited.

General Refuge Regulations

Public use of the refuge is permitted throughout the year. Permitted activities are hunting, fishing, wildlife observation, photography, environmental education, and interpretation.

Refuge permits are required for all hunting activities. Permits are nontransferable and must be signed by the hunter and carried at all times by anyone on refuge land in possession of hunting gear. A permit can be found on the front of this brochure.

Area closed to all public use.
Some areas such as waterfowl sanctuaries are only seasonally closed. Seasonally closed areas have the specific closure dates printed on the face of the sign.

Refuge Boundary Sign
