Chickasaw National Wildlife Refuge

Chickasaw National Wildlife Refuge plays an important role in our National Wildlife Refuge system. This area was established to provide essential habitat for migratory birds in the Lower Mississippi Valley. The U.S. Fish and Wildlife Service administers the Refuge System and is responsible for conserving, protecting, and enhancing the nation's fish and wildlife populations and their habitats for the continuing benefit of people.

The provisions listed below supplement the general regulations which govern public use on wildlife refuge areas as set forth in *Title 50, Code of Federal Regulations*. When permitted, hunting, fishing, and other public uses will be in accordance with applicable state laws unless otherwise listed.

General Provisions and Access Regulations

By law, National Wildlife Refuges are closed to all recreational activities unless expressly permitted. Hunting, fishing, and certain other recreational uses are permitted on most areas of the refuge. The refuge is a Day Use Area Only with the exception of legal hunting activities. No person shall access the refuge earlier than two hours before legal sunrise. *Contact the Refuge Manager for current regulations and authorized activities before entering these areas.*

Only legally licensed vehicles are allowed on the refuge. *ATC's and ATV's are prohibited*, except by disabled individuals possessing a refuge special use permit.

Most refuge areas are accessible to the disabled. Disabled persons are encouraged to participate in refuge hunts and other activities. Contact the refuge manager for guidelines to obtain special use access.

Roads may be closed at any time due to adverse weather conditions or management needs. Vehicles must remain on established roads as indicated on the maps on this leaflet. Vehicles may be parked alongside open roads in a manner that will not interfere with the normal flow of traffic.

All government property including natural, historic, and archaeological features are protected by Federal Law. Searching for or removal of objects of antiquity or other value is strictly prohibited.

All tree stands must be removed from the refuge daily. The use of nails, wire, screws, or bolts to attach a tree stand to a tree, or hunting from a tree into which a metal object has been driven to support a hunter is prohibited.
