FISH & WILDLIFE SERVICE

1980

Produced by the United States Fish and Wildlife Service

Wetland classifications from 1:120 000-scale black and white aerial photographs taken 1972 and other source data

Projection and 10 000-meter grid ticks, zone 12, Universal Transverse Mercator
50 000-foot grid ticks based on Arizona coordinate system central and east zones

1927 North American datum

To place on the predicted North American datum 1983, move the projection lines 3 meters south and 61 meters east

SPECIAL NOTE

This document was prepared primarily by stereoscopic analysis of high altitude aerial photographs. Wetlands were identified on the photographs based on vegetation, visible evidence of hydrology, and geography in accordance with Classification of Wetlands and Deep Water Habitats of the United States (Cowardin, et al, 1977). The aerial photographs typically reflect conditions during the specific year and season when they were taken. In addition, there is a margin of error inherent in the size of the aerial photographs. Thus, a detailed on-the-ground and historical site survey may be necessary to result in a revision of the wetland boundaries established by this map. Some small wetlands may not be shown on this document and those drawn may be inaccurately represented or located on this document.

Federal, State and local regulatory agencies with jurisdiction over wetlands may define and describe wetlands in a different manner than is used in this document. It should not be assumed that this document necessarily depicts the limits of any proprietary interest, or that it is adequate to delineate the geographical scope of the regulatory programs of government agencies. Persons intending to engage in activities involving modifications within or adjacent to wetland areas should seek the advice of appropriate Federal, State or local agencies concerning specific agency regulatory programs and proprietary jurisdictions that may affect such activities.

BASE MAP COMPLIES WITH NATIONAL MAP ACCURACY STANDARDS

CONVERSION TABLE	
Meters	Feet
1	3.2808
2	6.5617
3	9.8425
4	13.1234
5	16.4042
6	19.6850
7	22.9659
8	26.2467
9	29.5276
10	32.8084

To convert meters to feet multiply by 3.2808

To convert feet to meters multiply by 0.3048

Topographic Map Symbols

Primary highway, hard surface
Secondary highway, hard surface
Light duty road, privately owned, hard or improved surface
Other road or street, trail
Route marker: Interstate; U. S.; State
Railroad: standard gage; narrow gage
Bridge; overpass; underpass
Tunnel: road; railroad
Built up area; locality; elevation
Airport, landing field; landing strip
National boundary
State boundary
County boundary
National or State reservation boundary
Land grant boundary
U. S. public lands survey: ranges; townships; section
Range, township, section line: protracted
Power transmission line; pipeline
Dam; dam with lock
Cemetery; building
Windmill; water well; spring
Mine shaft; adit or cave; mine, quarry; gravel pit
Campground; picnic area; U. S. location monument
Ruins; cliff dwelling
Stream; lake: perennial; intermittent
Rapids, large and small; falls, large and small
