

Federally-Listed Aquatic Dependent Species Watersheds of Oklahoma

These watersheds were delineated using 11 digit Hydrologic Unit Code (HUC) watersheds. All watersheds adjacent to water bodies occupied by federally-listed species are included in the delineation, as well as those 11 digit HUC watersheds within 10 miles of the occupied water body. Please note that not all 11 digit HUC watersheds that feed into sensitive occupied water bodies are included in this delineation and effects to those watersheds outside of this delineation could impact sensitive water bodies.

Whooping Crane and Interior Least Tern
Salt Plains NWR

Interior Least Tern
Arkansas, Canadian, Cimarron and Red Rivers

Gray Bat
Watersheds were delineated by including all HUC 11 watersheds located within the known 20 km foraging radius of Gray bats.

Interior Least Tern and Gray Bat
Canadian River (ILT) and HUC 11 Watersheds (GB)
