

Mexican Wolf Blue Range Reintroduction Project Statistics

Initial releases of Mexican wolves as part of the Blue Range Reintroduction Project, Arizona and New Mexico, 1998-2008.

Data Current as of 15 June 2009

Year	1998	1999	2000	2001	2002	2003	2004	2005	2006	2007	2008	2009	Total
Number of individual wolves initially released ^a	13	21	16	15	9	8	5	0	4	0	1	0	92
Number of initial release events ^b	5	4	5	2	1	2	1	0	1	0	1	0	22

^a An initial release is defined as a wolf with no previous free-ranging experience that is released directly from captivity into the Primary Recovery Zone. Translocations are not included in this table (see Table 5).

^b A release event is defined as a Project activity occurring on the same day and location where one or more wolves are initially released.
